The Burke Murder.

The public attention has been attracted this week to the trial of Albert Jenkins and John Conningham, on a joint indictment for the willful and malicious murder of Reuben Bean, Jr., in July last. As the we may now indicted for the most beinous man that stains the law books of the land have a peculiar claim upon public notice, we deem it best to give a brief Seach of the life of each, and allow each of our teaders to draw such conclusions as the particular circumstances, may war-Albert H. Jenkins was born in and on on the 26th of March, 1840, and is detefore twenty-seven years of age. He diesed the occupation of farmer till the country called for defenders on a memorable day in '61. Among the first to enfoll their names in defence of liberty he collisted in Co. G. 3d Vt. regiment, and with that brave body of men served the nation faithfully till his culistment ended. when he received an honorable discharge. We learn that he has heretofore been a his tamily are quite respectable; and that was always regarded as a decent young man till the commission of the crime with Peacham. which he now stands charged. Union Base Ball Club.

This Club, at its annual meeting, June 4th, elected the following officers for the ensuing year: President, Norman D. Corser; Vice President, Horace G. Wright; Secretary, Walter Hawes; Treasurer, Heman B. Davis; Field Directors, N. D. Yale, W. T. Burnham, J. A. Moore; Umpire, Henry Hall. It is very gratifying to see the interest manifested by the young men of this place in supporting this game, and there seems to be no good reason why St. Johnsbury cannot have a club that will compare favorably with any in the state. It is hoped and expected that every member will attend the field exercises regularly, and make themselves as pro-

ficient in all that pertains to the game as possible. Undoubtedly other clubs will -Mr. P. B. Laird of West Danville, has be organized in this vicinity, and match the factory of the Messrs. SODA FOUNTAINS. Very few perhaps are acquainted with the chemical philosophy of Soda Fountains. Carbenic Acid Gas occupies a vastly greater space in an elastic gaseous state, than in a liquid or a solid. If generated in a close vessel it will soon exert an outward pressure which will continue to increase as the generation proceeds until it exerts the pressure of 540 lbs, to the equare inch, when t begins to assume a liquid form. It readily becomes a liquid with water he which it is

readily absorbed by agitation with the gas. When the pressure is removed from the water so charged, the acid at once expands from a liquid to a gas, causing the water to sparkle, effervesce or foam, forming one of the most healthful and harmlessly exhibitating of beverages. One of the new and most approved kinds of apparatus for generating the gas and charging Soda Fountains has recently been procured, and the purest chemicals
